PADI e - Learning – what's that?

PADI's e-learning system gives you the opportunity to finish the complete theory for the Open Water Diver course already at home to save this time in your holiday and just finish the course with diving in confined water (pool dives) and open water dives.

The time saving is usually two and a half day.

PADI's e-Learning offer is only valid for OWD courses!

How does e-learning works? After registration on PADI's website for the OWD online course you will get full access to the education system. You can find the link on our homepage www.james-mac.com

The essential knowledge will be given to you through interactive presentations. With the help of short quizzes you can make sure that you understood everything. In addition your responsible diving instructor can help you solve problems via email or chat.

As an online learner you will have access to the online version of PADI's Open Water Diver Manual during and after the course at any time.

The e-learning system is offered in several languages (German, English, Spanish, French etc.).

OWD – COURSE PRICE / MINUS	
	- 60.00

Please ask for further diving education (e.g. Rescue Diver or Divemaster) such as special certificates!

NITROX

Nitrox or Enriched Air Nitrox (EAN/EANX) is a breathing gas mixture of nitrogen and oxygen having a higher percentage of oxygen than normal air (usually between 32% and 40% instead of 21%).

The most common use of nitrox mixtures containing higher than normal levels of oxygen is in scuba diving, where the reduced percentage of nitrogen is advantageous in reducing nitrogen uptake in the body's tissues and so extending the possible dive time, and/or reducing the risk of decompression sickness. Unfortunately, the higher percentage of oxygen leads in increasing depths to an increased risk of oxygen toxicity. For this reason, it is necessary to complete a nitrox course in order to deal with the dangers and to be sufficiently informed.

Nitrox

Prerequisite for diving with Nitrox is basically the presentation of a nitrox certificate!
